

ANIMALI SOTTOSOPRA – FATTORIA

UPSIDE-DOWN ANIMALS – FARM

Costruzione e Memory. Gli animali della fattoria sono diventati acrobati: si appoggiano sulla punta delle orecchie, sul lato, in sù e in giù. E quando sono stanchi si sdraiano e giocano a memory.

Construction and memory. The farm animals have become acrobats, able to support themselves on the tips of their ears, on their sides, upside down or the right way up. And when they're tired, they lie down to become a memory game.
